Subject: Detection of Unapproved FDCs in SUGAM lab testing data-regarding

Sir/Madam,

This is to inform you that upon scrutiny of the SUGAM lab testing data for the year 2025, a large no. of drug samples (FDCs) are detected as unapproved and falls under the category of "New Drug". **(Attached as Annexure)**

No new drug shall be manufactured for sale unless it is approved by the Licensing Authority as defined in Rule 3 of New Drugs and Clinical Trial Rules, 2019. Further, as per Rule 80 of New Drugs & Clinical Trial Rules 2019, a person who intends to manufacture new drug in the form of API or Pharmaceuticals formulation, as the case may be, for sale or distribution, shall make an application for grant of permission to the Central Licensing Authority in Form CT-21 along with a fee as specified in Sixth Schedule.

The presence of unapproved drugs in the supply chain is a matter of serious concern, posing potential risks to public health and safety. It also indicates non-compliance with the provisions of the Drugs and Cosmetics Act, 1940 and Rules made thereunder.

In view of the above, you are requested to examine the unapproved FDCs in generic name as mentioned in the attached annexure if approval is granted by your office. Accordingly, please initiate appropriate investigation and regulatory action against the concerned manufacturers, marketers, and other stakeholders, as deemed fit. Kindly ensure strict monitoring and enforcement to prevent manufacture, sale, and distribution of such unapproved drugs.

In case the manufacturer has submitted the New drug permission which is mandatory as per Rule 83 of NDCT Rules, 2019 before grant of manufacturing licence, please provide the copy of the same. You are further requested to submit an action taken report (ATR) to this office at the earliest.

This matter may be accorded **top priority** in the interest of public health.

Yours Faithfully,

(Dr. Rajeev Singh Raghuvanshi)
Drugs Controller General (India)
